At Council Bluffs, Ia., in August, 1859, Abraham Lincoln learned from Gen. G. M. Dodge the facts which later caused him of urge the building of the Union Pacific—even when the country's resources were strained by war.

IF Lincoln could see this railroad as it is today, he would be satisfied with the fulfillment of his plan for a New West—opened, accessible, safe. The great president knew better than most others the value of a railroad in the right place. He had much to do with putting the Union Pacific where it is—in the strategic location for greatest service, east to west and west to east.

When Congress doubted, Lincoln insisted that the Government help build this road, "not only as a military necessity"—as Gen. Dodge has said—"but as a means of holding the Pacific Coast to the Union."

And this railroad, built for the sake of the Union, backed by the White House and the approval of the whole people, has never lost its *national character.*

It is truly "The Road of the Union"—tying the East and the West together with the strong bond of perfect communication. It was the first road west and is *still first* in everything which makes a railroad great and serviceable. Travelers and shippers commend the

JUST A REMINDER

The big idea at this store is, good clothes and your complete satisfaction, nothing less satisfies us.

We have better styles than ever before. What you young fellows want in clothes is style; not merely in the belt all 'round and the patch pockets, but in the drapery and tailoring.

Clothes are like good speakers; if they've good style, it's because of something that's born in them, not simply because they've got a few additional plaits or pockets.

HART SCHAFFNER & MARX

clothes of all-wool fabrics are made right to start with.

We guarantee them to stay right as long as you wear them.

Your satisfaction is the main thing at this store.
